

Bird Walk at Dorothy Carnes Park

Spring is upon us! Join fellow birders for a guided bird walk at Dorothy Carnes County Park and Rose Lake State Natural Area this Saturday, April 16, at 9 a.m. The walk begins at the west side entrance parking area located on Radloff Road, a few miles west of Fort Atkinson off Highway 12. Please bring binoculars if you have them, and note that some of the terrain is hilly. Families and new birders are encouraged to come!

Rose Lake State Natural Area and Dorothy Carnes County Park, with its variety of natural habitat – woodland, prairie, lake and wetland - are great places to see migratory birds this time of year. A large viewing deck allows birders to set up scopes and binoculars for memorable bird-watching without disturbing bird behavior on the water below.

The walk is organized by Jefferson/Dodge County Bird Walks and Friends of Glacial Heritage Area. Monthly bird walks are scheduled throughout the warm seasons on the third Saturday of each month.

Visit www.theropod.org/walks.html for upcoming walk details.
